

TEUKU RIDHO ABDULLAH

SOFTWARE DEVELOPER

ABOUT

I have been professionally developing software for over five years, with experience working on projects for notable clients such as Unilever and Bank Rakyat Indonesia.

PROJECTS

UNILEVER CANTEEN SYSTEM • SPRING BOOT AND REACT • 2026

A system used to monitor which employees have already taken their meals in the canteen, helping prevent duplicate meal claims and track daily usage.

UNILEVER VMS • SPRING BOOT AND REACT • 2025

Unilever VMS is a system designed to monitor visitors in real-time at Unilever Sei Mangkei.

WORK EXPERIENCE

SOFTWARE DEVELOPER • WITECH ENTERPRISE • AUGUST 2024 – NOW

- Develop Spring Boot apps
- Designing and developing Odoo modules
- Maintain and Optimize Odoo Systems
